BIGOTRY

Displayed in the House of Representative at Its Session Last June.

Story of the Passage of an Interesting Bill in the United States Congress.

Mr. Walter Evans Opposes the Granting of Equal Rights to All Citizens.

THAT VERY, VERY YELLOW DODGER

Mr. Turner is a broad, liberal-minded man, who is without prejudices and believes that all citizens should be protected them by the Constitution. Mr. Evans, church to become an Oratorian. on the other hand, is known by his record. That record is one that we would like to get fully before the people of this district, but our space will not permit that. We will content ourselves with an ship by any sect or denomination on the Father Maturin was sent to Aucrica. West Point military reservation. In the voting against it (see Congressional Rec- while here. ord, June 29, 1898, pages 7264 to 7271).

that I stand for religious freedom in its tablished in London by the Rev. Dr. broadest sense * * * and I know the Frederick W. Faber, which was subsepassage of this bill is absolutely necessary in order that a great many people at the munity is wholly independent of the West Point military reservation may en- other and neither has any substantial rejoy the right to worship God according to lation with the houses on the Continent the dictates of their own consciences. of Europe. * * * For one, sir, I make bold to say that I do not believe there is a man in this house who is so illiberal, so bigoted and equality among its members, even the so narrow-minded that he is not willing superior taking his turn in serving at the to give his fellow-men the same religious table. The members are not monks and rights he enjoys-that is, the right to do not renounce their private fortunes. worship God in his own way and accord- Their functions are limited to prayer, the ing to his own heart. If there be such a administration of the holy sacrament and man he ought to hang his head in shame, He is not in touch with the liberal spirit the membership was composed mostly of of his age. * * *

A member—(Was it Walter Evans?) Is not this bill intended to give the Catholic church a chapel at West Point?

Mr. Sulzer-Oh, no; the bill provides that any church can build a chapel at West Point if the Secretary of War gives his consent * * * We know that at West Point are many officers, a great many cadets, a great many soldiers who live there, and who must live there, who belong to the Catholic church, and who demand the right to worship God according to the rites of that church * * * who would deny them that right.

Mr. Powers-Do other denominations have chapels in this reservation? church there now—a Government church.

Mr. Cannon-I merely want to ask a question, so as to understand the facts. There is a Government chapel on the

West Point reservation?

Mr. Belknap-Yes. Mr. Cannon-And is occupied by Protestant chaplain?

Mr. Belknap-Yes. Mr. Cannon-Paid from the Government treasury?

Mr. Belknap-Yes. Mr. Evans-How large a town is West

Mr. Hull-It is only a military school.

Mr. Evans-Are there not other churches there that they can go to?

Mr. Evans—If there are other churches

METEORS.

Shower the Heavens During November.

ture or anthority, may be looked for, and Watch for the Most Dazzling Display of Fireworks in the Sky Since 1866.

> The Coming Two Vast Showers of Falling Stars Only Two Weeks Apart.

AIR PROTETS US FROM METEORS

Two great meteor showers in a single

Oue of the expected showers will result from the first on-rush of the advancing columns of the great Leonid meteors, which envelop the earth in fiery spectacles once in every thirty-three and a quarter years, or three times in a century. The main mass of these meteors is due in extends over a length of at least two thousand million miles, they require not less than three years to pass the place where their orbit intersects that of the

Accordingly, astronomers are confident that their leading files will be streaming, in hundreds of thousands, across the point of intersection when our globe arrives there about November 13, this year. The tocsin of science has been sounded, star-maps and directions to observers have been scattered broadcast, the latest improvements in photography have been enlisted in the service, and the astronomical world is on the qui vive for the expected encounter.

The other great shower occurs on the night of November 27, and will be caused by the meeting of the earth with the ncteors known as the Andromedes, or Bielids, which are closely related to the famous missing counct of Biela, if they are not, in fact, scattered debris of that meteor, or piece of a smashed comet, is rope, and the man who finds another like it, after the shower next month, will possess a treasure for which the scientific

world will envy him. The average person who goes out on the uights of November 13 and 14, and again on November 27, and looks serenely up at the sky with its flying sparks-if he is fortunate enough to see them-will have no idea in how simple a manner he is protected from a great danger. If he did have the idea an element of fear and

dread might tend to upset his equanimity. Only the transparent air protects us against death from meteors. What the effect of a small meteor striking a human body with undiminished velocity would be we can only guess. A Mauser builet, traveling say 2,000 feet in a second, when it enters the brain cavity, or any of the water-charged tissues of the body, produces explosive effects that make even army surgeous recoil aghast.

But a meteor's velocity at the instant it strikes the atmosphere is from 50,000 to At a meeting of the Allied Printing 250,000 feet per second. Would it blow a man to pieces as if a can of nitro-glycerine had been exploded against his breast? Or would it incinerate him like a stroke of lightning, even as it is itself incifierated by the more than furnace heat may answer these questions, there remains plentiful food for thought in the spectacle of thousands of such missiles burning themselves into harmless puffs of gas a few miles above our heads.

And, what makes the whole question nore interesting, occasionally the shield the earth's armor is penetrated by a meteor of more than ordinary size and in 1885, and it may happen again next

The Mazapil meteor, composed mostly through a hundred miles or so of air, it would penetrate the stoutest roof or wall, On Wednesday Messrs. J. L. Wilkin- and if as large as some others that have stead of the twin comets, a dash of son, general manager of the Great West- been known to reach the earth, it would ern Company, England, R. G. Colhoun, demolish a twenty-story building more that the comets had met with another dismembers who voted against the bill, and traffic manager of the Great Southern effectively than a whole broadside of

The adventures of the two great troops

billions are whirled into new paths and

drawn out into streams like eddying leaves in a storm. Although the general orbit of the meteors is not changed, yet, after each encounter with the earth their compaaies and columns are broken and reformed, gaps are created and the entire Prepared to Go Into a Confermass is drawn out into a more extended array. Because of these changes it is quite impossible to predict the precise point in the meteoric formation which

the earth will strike when it meets the

In 1833 a particularly dense mass encountered the globe, and the result was a spectacle that carried terror broadcast over the world, the greatest excitement being produced on the plantations of our Southern States, where the negro slaves believed that the end of the world was upon them, while their white masters could not give them the assurance that their fears were not well founded. All accounts agree that the universal amaze-

In 1866, when the earth next encountered the Leonid meteors, the display was magnificent, but not so overwhelming as in 1833. Brilliant showers were seen in reason for expecting a display this year. Whether we shall encounter a compact column of the meteors or a comparatively scattered mass no one can fortell, but that many will be seen may be regarded as a certainty. Even the precise time when the most brilliant spectacle will be presented is not known. The Harvard College observatory advises watchers

light on November 15. The constellation Leo, from which the neteors appear to emanate, rises about 10:30 o'clock, so that all the meteors seen before midnight will appear shooting up like skyrockets from the northeastern horizon. Later on the radiant point approaches the mid-heaven in the early uorning hours and the tracks of the meteors, when traced backward, will appear to meet like the ribs of a gigantic um-

until the stars fade in the morning twi-

brella spread over the earth. One circumstance will be especially favorable for a brilliant display; the moon, being new, will not interfere with its

The meteors come from the eastward and the earth will be moving toward that quarter, so that the velocity with which they enter the atmosphere will be nearly a maximum. It is as if two trains moving in opposite directions should meet, seen in a great shower in 1885, when one (the earth) traveling eighteen miles

> the spectacle of their striking, if we could for union. witness it near by, would probably ascover the moon's surface may be due to

but for its atmospheric protection. The past history of the Leonid meteors year 126 of our era, there is reason to beorbit around the sun, intersecting that of the earth. What happened to Uranus when they met we shall never know, although the fact that Uranus still serenely pursues its distant orbit indicates that that planet was not the chief sufferer from the encounter. Perhaps before the meeting with Uranus the meteors formed a comet, as the Andromeda meteors did before 1872. What the ultimate effect of their repeated encounters with the earth will be is hardly problematical. Every time

they are more widely scattered. But we can not be certain that we have vet met the densest mass of them that crosses our orbit, and the possibility exists that they may terrify the world again more effectually than they have ever done before. The best advice of the astronomer is to keep au eye on them.

The Andromeda meteors, due on November 27. have had even a more remarkable representative men, say five or ten on career than that of the Leonids, although of the atmospere proves insufficient, and their history is comparatively brief. They were never seen before 1872, although previous to that time a well-known comet density. This is what happened at Maz- traveled in their track. Something wonapil during the shower of the Andromedes | derful happened to that comet fifty years ago. Just what it was nobody knowspossibly a clash with an asteroid—but after the accident, whatever it may have of iron, buried itself two or three feet in been, the unfortunate couret was found to the hard soil, and was dug out, yet glow- have been broken in two. It survived the ing with heat, by persons who had seen it separation, although its parts had been fall. If a similar meteor should fall in flung hundreds of thousands of miles New York city, notwithstanding the loss asunder, and, continuing along its former of velocity it would suffer in passing orbit, came back as a double comet in 1859.

But when it was next due, in 1872, inmeteors appeared in the sky, indicating aster, and that the earth had encountered a portion of their shattered renmants. In States—is a candidate for re-election and interviews with some of the leading mer-rapidly toward the earth have been valerady told, an iron mass fell from the asking fair-minded men and members of chants who have taken up an attitude in ried and startling, and the future may sky in Mexico. ence With the Redmondite Party.

The True Policy Is to Endeavor to Build up Again a Union of All Forces.

So Far as the People of Ireland Are Concerned They Are All for Union.

ment on the 13th of November, 1833, was ENGLISH PLEDGES ARE WORTHLESS such as the world has very rarely experi-

at dinner by the Nationalists of Glasgow in St. Andrew's Hall recently. The Dublin Weekly Freeman says the reception accorded to Mr. Dillou was of the most enthusiastic character. The Sunday demonstrations were the largest held in Glasgow for years, and the Nationalists of that city subscribed \$2,000 in aid of the Parliamentary fund. At the banquet Mr. John Ferguson presided.

In response to the toast, "Our Guest and the Parliamenta.y Party," prepared by Father Ambrose, Mr. John Dillon, M. ., said in part:

to begin their vigil about 11 o'clock on the evening of November 11, and keep it up On behalf of the party with which I un identified, and on my own behalf, I thank you with all my heart for the way n which you have received this toast tonight. I feel called upon and moved to say a special word of thanks to the proposer of the toast, Father Ambrose, as he representative of an order endeared to Irish Catholics in a hundred ways associated from the day of its foundation to the cause of the poor and the people, and to which I am personally bound, as Father Ambrose knows, by the closest

In these days it is indeed a pleasure to see a body of men representative, fully representative, of one of the greatest centers of Irish nationality in the world unanimous and hearty in expressing thanks to the Irish National party. Now, I claim to be one of those who throughout the days of stress and storm of the last eight years have remained faithful according to our humble judgment and abilities to the old principles of the Parnellite party as it existed before 1890, The moon, too, will be involved in the tiplying every day that our reward is at and I am sanguine that the signs are mulhand; today, so far as the people of Ire atmosphere, its surface will have no pro- land are concerned, they are all for now in a minerological museum in Eu-

> Now, what are the obstacles to union? tonish us beyond measure. No doubt a As far as I know, there are only two oblarge meteor, when it hits the moon, is stacles. One is the difference which still not only itself dissipated but produces a exists among the Irish representatives, pocket of molten rock where it strikes. In and the other is the contentions kept up fact, the immmerable pockmarks that by certain newspapers. I am speaking in the presence of the press, and therethe impact of meteors, and they show us fore I had better be civil; but I must say what the experience of the earth would be that although a public man, I recognize to the fullest extent the enormous benefits conferred on mankind by the newspossibly predicts their future. Until the paper press. I do think the newspapers sometimes aggravate and protract quarlieve, they were free wanderers in open rels, because quarrels, you see, give good space. Then they encountered the planet copy, and if a country is pulling all Uranus and were diverted into a closer together there is a dearth of interesting iutelligence, and one of the elements which has tended to keep up the semblance of faction and division in Ireland received with regret. He has proven one -and it is now no more than a semblance is the contentious attitude of certain of the order, but increased business obliournals whose names I won't mention.

Now, I ask, what is to be done? You will all remember a proposition which was made at the convention held in Birmingham this year on the suggestion of Glasgow, with a view of bringing the Parliamentary representatives of the people together, and what occurred in consequences of that suggestion. We are asked sometimes for practical proposals? My practical proposal for bringing about union among the Irish representativesa union, recollect, which the people are eager for and demand-is that a conference should be held of any number of each side, five to begin with nominated by Mr. Redmond and five by myself, and nobody to be bound by the result of that conference, but let us get together in a room and see whether we can not draw up a scheme by which our differences can be adjusted. If such a representative conference can agree upon a scheme, Police Sergt. Doran Recovering from the that scheme would bind nobody until it was submitted on either side to the lead ing men of the country. My conviction is so strong that there is no real substantial or serious differences between us that I am convinced that if once we got together round a table, whether it be square or round, we would emerge from the room very good friends and work together for the good of the country.

Now, I desire to say a word or two on some recent controversies which have English parties, because there are some 1885 the meteors appeared again, and, in men in Ireland who claim that the only cause of difference between us and the Parnellite party is that we are too closely attached and bound up with the Lib

representatives of the Irish people are the lines of the old Parnellite party as it existed before 1890. Now, I put the ques" tion with confidence to everyone who calls himself a Parnellite in Ireland today-is he content, or is he not, to go back to the precise lines of the old Parnellite party before 1890? What more does he want than the old Parnellite policy, and if we accept that policy then I fail to see where the difference comes in between us. I take it as a great advance in Irish politics that the leaders on either side can now reason out the matter in sober and rational language.

Last year Mr. Redmond made an ap-

peal to me in a speech which he delivered

in Waterford from which I gathered that if the answer were in the affirmative he would be prepared to enter into negotiations for rennion. He made an appeal to me and he said it was my duty as the leader of the largest section of the Irish Nationalist representatives to go to the leaders of the Liberal party and ask them for pledges that they still maintained the same position regarding home Mr. John Dillon, M. P., was entertained rule as they did under Mr. Gladstone's leadership. Well, the first question I ask is, who are the leaders of the Liberal party and who will be the leaders of the Liberal party after the next general election? He will be an exceedingly clever man who will tell me that. I don't know. The next objection that I have to the proposal of Mr. Redmond is that I never heard of a responsible politician who ought to base his policy on the pledes of the leaders of a party in opposition, because you never can tell what will become of a party in opposition when it comes From the press dispatches we extract the into power, and the man or men who gave you pledges in opposition may find when they come into power that they are entirely unable to redeem the pledges, from the fact that they have not been called to the leadership which they ex-

> pected to possess. Furthermore, I decline to make any attempt to extract pledges from the leaders, if we could find them, of the Liberal party that they will remain faithful to the policy to which they are already pledged over and over again, because I decline to base the future of the Irish cause on the pledges of any English people of Ireland over and over again that their only chance of obtaining home rule lies not in the pledges of English Ministers, and still less in the pledges of leaders of a party in opposition, but in their vote is a commodity worth having. that the true policy for us to pursue is to devote our attention, not to the eddies and turns of English politics, but to the building up again a united party in Ireland which will plant upon the floor of England that will faithfully, honorably and loyally carry our that policy.

WILLIAM J. M'CARTHY

Elected President of the Y. M. D. of the Ancient Order of Hibernians.

Young Men's Division, No. 6, on Tuesday evening had a well-attended and interesting meeting, at which a great deal of routine business was transacted.

The resignation of Mr. Lawrence J. Mackey as President of the division was of the most efficient and popular officers gatious rendered it impossible for Mr.

Mackey to further hold the position. William J. McCarthy, with the firm of Altsheler & Co., the Main-street whole sale grocers, was elected to fill the unexpired term of the retiring President, and from the way he starts off it is apparent that the members made a wise selection. Mr. McCarthy, though a young man, has been a member of the Ancient Order for a number of years, and his address upon being installed gives indication of a firm and live administration. Efforts are to be made to largely increase the membership of the division children, people-are not to be won as and an invitation is extended to all young spoils of war or prizes in battle. speaks Against the Present Policy of the Republican Lenders.

Declares That We Should Contique in Our Own Path and Not Follow England.

THE SOUND ADVICE OF A STATESMAN

There have been many utterances durng the past few weeks as to the advisability of annexing Porto Rico and the Philippines, but none should be read with more careful attention than those of Senator Hoar, of Massachusetts. The venerable statesman has had a long experience in national affairs and is competent to judge impartially the effects of the proposed policy of the Washington anthorities. At a political meeting this week he intimated that the present policy would lead to trouble in the Senate. following portion of his address:

"This year has been crowded with history and crowded with glory. It is also either from the opposition of colleagues or flag of Spain, formerly the proudest power on earth since the day of the Roman Empire, has gone down in darkness and in blood before the victorious navy and army of the United States. The flag of the United States has arisen in the eastern sky like a new constellation. Let us not accept the duties and responsibilities of this victory in any temper of vulgar vainglory, still less of vulgar greed of power or of gain. The United States Ministers. I think it would be deceiving and West, as a great deliverer. To deal comes to these oppressed people, East for these pledges now, for I have told the with this great commission by talking about coaling stations and trade advantages degrades and belittles it. We have not overthrown Spain, we have not periled the precious lives of our sons that we may add to our possessious, or that we the fact of their own solidarity, and that their vote is a commodity worth having ican people is to themselves, and when I

"On the contrary, I believe that the highest service the American people can the House of Commons eighty-two Irish render to mankind and to liberty is to members who will support any party in preserve unstained and nuchanged the republic as it came to us from the fathers. It is by example and not by guns or by bayonets that the great work of America for humanity is to be accomplished. And in my opinion we are today in a great danger-a greater danger than we have encountered since the Pilgrims landed at Plymouth. The danger is that we are to be transformed from a republic founded on the Declaration of Independence, guided by the counsels of Washington, into a vulgar, common-place empire

founded upon physical force. "I, for one, am not dazzled by the example of England. The institutions of England which have enabled her to govern successfully distaut colonies and subject states are founded, as Mr. Gladstone pointed out, on the doctrine of equality. If we are to outstrip Eugland in national power it must be by pursuing our own path and not by following in hers.

"It is said that Porto Rico is already ours. It may be that Porto Rico is to become ours. But there is no authority under the Constitution of the United States to acquire any foreign territory save by a treaty approved by the Senate by a two-thirds vote or by an act of legislation in which the President, the House of Representatives and the Senate must unite. It is said the Philippine Islands are already ours by right of conquest. For one, I deny this alleged right of con-Human beings-men, women, be that such a doctrine finds a place in the ancient and barbarous laws of war, States. I have stated elsewhere the conditions which, in my judgment, war-ranted the acquisition of Hawaii. Hawaii came to us with the consent of her own Government, the only Government capable of maintaining itself there for any considerable length of time. In the Police Sergt. John Doran has suffi- case of the Philippines we are asked to tion. We get them by conquest and hold

"Some of our good friends have said, thoughtlessly, in their zeal, that where the American flag goes it must stay. But surely they do not wish to commit the country to that doctrine. We planted it on the City of Mexico. But no man the war goes on we shall plant it on the coast of Spain, but we have no desire to hold permanent dominion there.

"If the Philippine Islands become on then, under the late decision of t Supreme Court, every child hereafte born in them becomes an American citi The movement to give the Louisville zen-free to come, free to go. Are you

TUESDAY'S ELECTION.

The Democrats of this district in ist party, but which last year, nominating and electing Hon. Oscar nevertheless, seemed to that same Turner to Congress will have made party the height of statesmanship. no mistake. Mr. Turner is yet a Everything depends on circumyoung man, but that has ceased to be stances-including the course of a crime in Kentucky. The people action of English politicians and have learned that young men with place-hunters, whether they be their progressive ideas and abound- Liberals or Tories. ing energy are often the best of public servants. In all things that go to make a useful representative in Congress Mr. Turner is eminently qualified. A long residence in Washington has given him the experience that the average new member only gets after years of service, and he will take his seat equipped for the discharge of his duties as Congressman in a manner most satisfactory to his constituency. He is remarkable for his sound judgment and practical sense, as well as for unusual talents. He stands high as a member of the bar of Louisville, and his talents as a man of business have received the encomiums of the most eminent authorities. As a private citizen no words but those of praise can be spoken of him. A kinder son and truer brother never lived. In his views on public questions he has ever been on the side of the cause of the people and has made many sacrifices to aid that eause. His love of his country and his countrymen is inspired by the purest patriotism. No man feels greater sympathy for the poor and oppressed, and none performs more real works of charity in the way taught by our Savior when he said: "Let not thy left hand know what thy right hand doeth." The peo-

Dan Harnedy-Skibbereen. Tom Langan-A good time.

It is prophecied that the bell-phonograph will eventually supersede shorthand, in that it gives us accurately word for word the desired information, which can be immediately transmitted to paper by means of the type-writing machine. There is no fear of errors of judgment or diction with the bell-phonograph recently perfected by Edison talking to the typewriter and coming direct as the information does from the speaker. This will make another notch in the post of change and progress, and will doubtless give rise to still other changes and improve-

There is much talk of introducing the inge bee of the Philippine Islands into this country. This little giant is a third larger than the bee of our country and has a long tongue, which it folds up under its body. It is an incessant worker, so busy, in fact, that it does not have time to use its sting, consequently many have thought that it had no sting. It builds a comb six feet long by four feet high and from seven-eightlis to an inch and a half wide. The tongue of this bee is so constructed that it can sip honey from flowers that our American bee can not reach. Should this remarkable worker be introduced into our country wax will become more pientiful, and this may ultimately result in the disuse of common oil for lighting purposes and give us once more the old-time mellow light of beanti-

The latest miracle of science is liquid air-air compressed to an 800th part of its mite. Every decade and every year brings its own discoveries, but never before was it dreamed that the air we breathe could be compressed to such an extent as to assume a liquid form and be a most pow-

The lengths to which a certain form of hanghty dignity will go are at times intensely ludicrous. At a fire the other day in a New York boarding-house, while all was confusion and haste, a man very collectedly walked down the stairway with his new snit in one hand and his bicycle in the other. He was dressed like a Sandwich Islander.

The alarming condition of the natives of India under the present system of English government is being commented on by the ablest journals of the country. Evictions, famine, murder, each and all following in turn, have desolated that land once teeming with life and made of it a sickening, blood-stained area, from whose bosom the wails of her children cry aloud for vengeance. And yet this is the Government that our Anglo-maniacs want us to be "friendly" with; in other words, to court and cajole, and for what? That she might be able to get us to help her when she is left out in the cold by the other powers. The old jade appreciates the strength of the that she tried to strangle in its infancy, but failed. Honor and independence is emblazoned on the American escutcheon, while on that of England is written in letters of blood: Treachery, perfidy.

Living in Cuba is enormously high. A comfortable house that rents here for say \$25 will demand \$75 there. Wages to servants are in exactly the same ratio, But I've heard his ealling card reads The house-girl will not do cooking, nor will the laundress do housework, and vice versa; so that to live in any comfort or style whatever one is required to keep a retinue of servants. Beef is not killed as a rule until the day it is needed, and to get pork or fowls the housewife must Many Officers of the An- order her pigs or poultry alive, squealing or quacking as the case may be, to the kitchen quarters. I'lsh are seen swimming in pools, and you order your salmon or trout or red snapper just as you please. But of all lands Cuba is the one par excellence for fruits. Rich and luscious as they are, the different kinds and their names bewilder any American. A man's room and board outside of a hotel costs him \$25. Hotels are proportionately high. The Spaniards are remarkably courteous. Their salutation, when you enter the house, is "Seignor, my house is at your disposal." If a traveler loses his way on the public streets they will not only direct him aright, but will volunteer to go with him to the place. The Cuban women have most beautiful complexions, and the officers of the Spanish army are a remarkably fine-looking body of men and models of kindness and

The Meffert Stock Company will present next week another play never before seen in Louisville, entitled "Society Shadows." It is by Howard P. Taylor, author of "Infatuation" and a score of was succeeded by Father Vanderworth. chewing, shiftless set of daily loungers other fine dramas. The play is a very interesting one and contains some of the strongest scenes witnessed here in a long time. The comedy element strongly predominates and the parts will give the individual members of the company great scope for fine acting. The mounting and staging of the play will be up to the usual standard of the Temple Theater, the most popular play-house in Louisville.

Kelly and Mason, the tall comedian seen at the Avenue Theater for one week commencing tomorrow evening and ineluding the usual matinees. Since last season the play has been thoroughly revised and the pruning knife freely applied to the great betterment of the comedy. Another feature of this season's production is the liberal application of 'vaudeville trimmings' and pretty girls. These two pleasing additions have brought "Who Is Who" right up in line with the leading faree-comedy organizations of the day. Pretty music has been interpolated in every possible moment and the result is one of the merriest evening's entertainment extant. This year's company in the support of Kelly and

OPENING LUNCH.

evening, November 17, and it is expected the hall will be crowded.

Invitations have been issued by Dave Garvey, formerly of Garvey's Hotel, and is very beautiful. The ring is the pledge a well-known and popular young man, to of faith with which Christ wedded the an opening lunch to be given his friends church his spouse. As the young man at his new place, 412 Fifth street, this puts a ring on the finger of his spouse so evening. Dave has had experience, and the bishop receives a ring at his consecra- there is a rare treat in store for those who

WILL BE RATED.

Many hard things have been said and written anent the column erected to the memory of England's greatest Admiral in O'Connell street, Dublin, says the Herald. People have almost wearied of abusing it, and the iteration of the objections raised against it on various grounds have made the public a little tired of the subject. Fresh interest may be imparted to it by the extraordinary disclosure that though liable for both rates and taxes, neither has been paid on the pillar for half a century. The cause of its exemption from rating is "greatly dark," but those who regard it as an insuperable obstruction and an unmitigated nuisance and eyesore will rejoice to learn that it is to be rated next year for the first time.

FRILLS OF FASHION.

Gan metal belts with steel ornamentation are very effective.

One of the novelties in muffs is shaped like a melon and made of two narrow

Tulle ruches spotted with chenille in either black or white are wonderfully pretty and becoming. A new liberty material is called Orion

and is exquisitely soft in finish. Buttons of all kinds seem to be in vogue, but the latest novelty is crystal or glass handsomely cut. Mother-of-pearl

satin. It comes in all the light colors

Pretty trimmings for edging bows and flounces are made of thin, narrow lutestring ribbon gathered in the middle.

Soft, rich colors prevail in the fashion for gloves, the glace gloves being the favorite for street wear and the suede iu a soft cream shade for evening. Some of the street gloves are heavily stitched and fasten with colored crystal buttons.

RECENT DEATHS.

Among the deaths of the past week none caused more sorrow than that of little Marguerite, the daughter of Mr. curred Tuesday. Her funeral took place from the residence of Mr. Pat Donahue Duncan street, Wednesday afternoon.

John J. Maloney, forty-two years of age, a brother of Policeman Peter Malosis. The funeral took place Wednesday morning from the church of St. Aloysius,

Mrs. Ann Regan, aged sixty years, died of a complication of diseases last Monday afternoon at her home, 1805 Harrison avenue. The funeral took place Wednesday morning from the residence of her daughter, Mrs. Shrader, and the services at St. Aloysius' church were largely

Mr. John Ford, slxty years of age, an course on the Irish race in the civilization had been ill for several weeks and his partment, which was totally shattered. The stone entered the carriage, but fortunately the occupants of the seat nearest the window were bending forward at the time to catch the conversation of two friends opposite and so escaped the misablest and best ever delivered in St.

Louis. Rev. Fathers Dempsey and Clark also spoke of the order and its works.

Brother Fitzgibbon, the worthy County President, spoke of the order in St. Louis

Brother Fitzgibbon of the order in St. Louis

A host of friends mourn his demise. The funerul took place Wednesday morning at 9 o'clock from St. Charles Borromeo church, and the remains were followed to St. John's cemetery by a large concourse.
